- Artwork Title -

THE FLORIDA KEYS AND KEY WEST

This particular piece of screen printed and epoxy resin art is one in a series of original, signed and numbered creations by the artist, Tom Ruley, of Capt'n Tom's Artworks. While each piece has similarities in screen printing including the title text, the compass rose and South Florida, Florida Keys imagery, each piece is also unique in how the epoxy resin is applied to the coated masonite substrate especially in regards to epoxy flow, pigment color and some embellishment of the actual keys to represent roads and populated areas.

This series of art creations is inspired from actual Florida Keys satellite imagery. The series is unlimited in that the artist intends to keep producing these until he no longer desires or is unable to continue production. Each one is signed and sequentially numbered as produced.

About The Artist:
